

ALLOWABLE 90-Day Supply Medication

In 2013, AmeriHealth Caritas Louisiana initiated a pilot program to improve medication adherence in three (3) key therapeutic treatment areas: hypertension, diabetes, and high cholesterol.

Practitioners were and continue to be encouraged to prescribe a 90 day prescription for those members that are on medications that qualify for a 90 day supply.

New for 2015, we have updated the listing of these medications to include some newly available generic drugs in these therapeutic categories. In addition, we are now allowing select Asthma Medication to process for a 90 day supply as part of this program.

Pharmacists are encouraged to work with providers in order to obtain a 90 day prescription for those members that are on medications that qualify for a 90 day supply.

Pharmacies will be given two dispensing fees for all 90-day prescriptions filled as part of this program.

Please contact the Pharmacy Customer Services Department if you have any questions or concerns about this initiative at 800-684-5502.
